**FOR PACE MEMBERS  
AGED 3-18**

PACE membership includes free representation for any work cast through PACE Casting. All active PACE members aged 3-18 will automatically be considered for film or TV auditions when we are contacted by agents with an appropriate casting brief. Our Casting System consists of website and search result forms submitted by us in response to other casting enquiries.

There are three options available to all members regarding their entry on the casting system:

## 1. FULL ENTRY

The vast majority of casting enquiries initially request photographs. A full entry features a high quality photograph taken in our studio by a professional photographer along with a section for special skills and previous film or TV experience like the one below. Photographs are taken once a year, though details can be updated at any time.

A full photo entry lasts for a maximum of two years, in order to keep photos accurate and up-to-date for Casting Agents. If you wish a full entry then you must book a photo appointment. Professional glossy prints of photos in various sizes are also available to order.

## what is pace casting?

PACE has unrivalled reputation for supplying talented young actors for the film and television industries in Scotland, the UK and beyond. Over the years PACE members have appeared in hundreds of TV programmes, films and adverts, both in the UK and abroad, including Taggart, Nina & the Neurons, Still Game, Me Too, Waybuloo, Rebus and River City.

In 2005 we expanded our casting service to include the option of professional quality photos and CVs for every member in order to make more production companies aware of the huge breadth of talent currently attending PACE workshops, as well as making

it easier for them to cast with us. In 2009 we launched our secure, password protected, PACE Casting website, which allows established, professional production companies to search and filter records quickly for their individual requirements.
