

# SPACE ADVENTURE ACTIVITY SHEET

**Hello, sPACE Explorer!**

You can choose one of the activities below (or all of them!) to explore your Audio Adventure into Space!

## **Draw your Planet**

**For this activity you will need a piece of paper and some colourful pens, pencils or paints!**

What was your planet like? Can you draw a picture of it? Think about what your planet was made of, what it was like when you were walking on it and if anything lived there! And don't forget to give your planet a name, too!

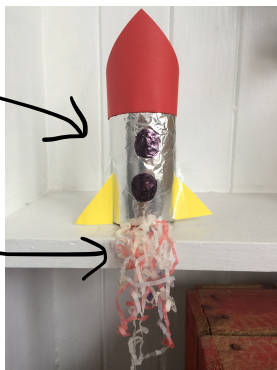

## **Build your Rocket!**

**For this activity you will need some supplies for arts and crafts - scissors, glue, pencils or paints, paper and any junk to build!**

Your rocket flew you into space for your adventure! What did your rocket look like? Let's build it! Maybe you can make some planets or shooting stars, too, for your rocket to fly past! Here's some inspiration:

A cardboard tube is a great place to start!

Confetti from a party popper makes great rocket power!

Tin foil is great for making things look space-y or scrunch it up to make planets!

## **Write about your Space Adventure**

**For this activity you will need a piece of paper and a pen or pencil!**

Can you write your own space adventure? Grab a pen or pencil and see what might happen next if you flew back into space...what other planets would you visit? What space creatures would you meet?
